

Visual Style in Websites

Accent color

- Use tints & shades of a single color + Accent color.
- Accent color should contrast strongly with normal color.

Transformation with a purpose.

While meeting our clients' specific business goals, LEVEL has gained deep industry insights within the Consumer Electronics, Enterprise Technology, Entertainment and Gaming industries. Dedicated teams leverage this core expertise to transform businesses, deliver tangible market impact and provide solutions to unique vertical challenges.

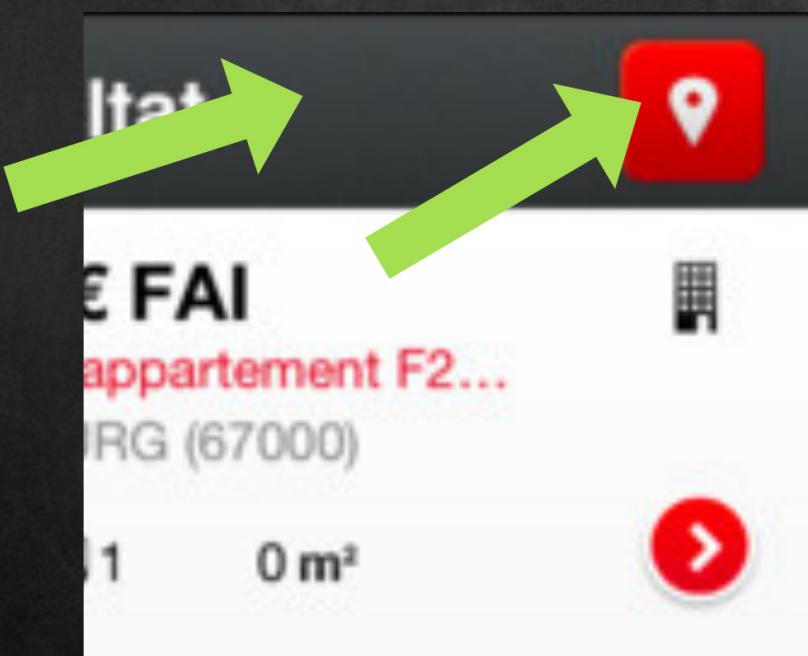

Consumer Technology

B2B / Enterprise Technology

Overview

The transformation of the Consumer Technology (CT) landscape is being propelled by the desire for new types of

Subtle gradients

A screenshot of the search results page of the mobile real estate app. The header shows 'Résultat' and the network 'Orange F 3G' with the time '14:17' and battery level '82%'. The results list four properties:

Texture

- Subtle texture as background
- Shouldn't interfere with legibility of text
- Use colors that are close together in saturation, brightness

Flat colors

- Simple blocks of color.
- No borders
- Use of contrast to define shapes

Simple lines

- Consistent line weights
- Color and thickness affect hierarchy
- Light, thin = less strong
- Thick, dark = more strong

Practice identifying visual style elements

- Look at the next 3 examples. Try to describe some of the visual style elements. How are they different?
- What's some of the treatments for type, images, color, backgrounds?
