Relative filepaths

Use the diagram to complete the following

awesomehausbrewery.com

- index.html
- pages
  - breakfast.html
  - lunch.html
  - dinner.html
- images
  - bacon.jpg
  - eggs.jpg
  - steak.jpg

1. Write the path linking `index.html` to `breakfast.html`

   pages/breakfast.html

2. Write the path linking `index.html` to `lunch.html`

   ~~Pages/breakfast~~ *pages/lunch.html*

3. Write the path linking `breakfast.html` to `index.html`

   .. /

4. Write the path linking `lunch.html` to `breakfast.html`

   breakfast.html

5. Write the path linking `breakfast.html` to `eggs.jpg`
   ../images/eggs.jpg

6. Write the path linking `breakfast.html` to `bacon.jpg`

   ../images/bacon.jpg

7. Write the path linking `index.html` to `bacon.html`

   ~~images/b~~ *pages/bacon.html*

Full URLS

Use the diagram to complete the following

mynews.com

- **A** index.html
  - local-news
    - **B** index.html
      - story-01
        - **C** index.html
        - main-photo.jpg
        - **D** photo-02.jpg
      - story-02
        - **E** index.html
        - main-photo.jpg
    - ads
      - **F** shoes.jpg
      - movie-a.jpg

8. Write a complete url to **A**

   http://mynews.com

9. Write a complete url to **B**

   ~~http://local-news/~~ *http://mynews.com/local-news/*

10. Write a complete url to **C**

    http://mynews.com/local-news/story-01

11. Write a complete url to **D**
    http://mynews.com/local-news/story-01/photo-02.jpg

12. Write a complete url to **E**

    http://mynews.com/local-news/story-02/

13. Write a complete url to **F**

    http://mynews.com/ads/shoes.jpg

Fix this

None of the following links work. Use the diagram to rewrite the links

14. `http://brew.com/Breakfast%20at%20home.htm`

http://brew.com/BreakFast%20at%20home.html

15. `http://brew.com/images/bacon.jpeg`

http://brew.com/pages/images/bacon.JPG

16. `http://brew.com/images/chicken-fired-steak.jpg`

http://brew.com/images/chicken-Fried-steak.jpg.png

17. `file://brew.com/page/lunch_MNU.html`

http://brew.com/pages/lunch-MENU.html

18. `http://brew.com/pages/images/eggsAndToast_222x123.jpg`

http://brew.com/images/eggsAndToast-222x123.jpg

19. `ftp://brew.com/pages/dinner_Menu.html`

http://brew.com/pages/dinner_Menu.psd

brew.com
- index.html
- Breakfast at home.html
- images
  - eggsAndToast-222x123.jpg
  - chicken-fried-steak.jpg.png
- pages
  - lunch-MENU.html
  - dinner_Menu.psd
  - images
    - bacon.JPG

Files

20. Match the measurements to their descriptions

Measurement	Description
60px	The color of a border
1em	File size of a GIF
4.2kb	Height of a banner ad in pixels
1024x768	Pixel density of a screen
72ppi	File size of an MP3
#000000	Text size
3.6mb	Height and width of an image in pixels

21. Circle the files that can be displayed in any web browser

flower.psd   vacation.doc

(pastry.html)   gorilla.tiff

menu.ai   (breakfast.jpg)

(landscape.gif)   (bike.png)
